

DIDSBURY PIONEER

VOL. XXIX, No. 15

DIDSBURY, ALBERTA, THURSDAY, APRIL 14, 1932

Didsbury Will Hold Fair This Year

Despite the fact the government has withdrawn all grants and assistance from the small fairs throughout the province, the Didsbury Agricultural Society has decided to carry on.

A meeting of the directors was held Friday afternoon last and it was pointed out to them that the operation of the fair would not be possible unless all concerned were willing to make a sacrifice. In former years the government made grants of one-half of the prize money paid, together with one dollar per membership up to \$100.00. They also supplied the various judges.

It was proposed to operate this year without paying prize money, ribbons to be the only award, and no charge will be made for entries. A canvas was made of those present, most of whom were exhibitors, and they all stated they would bring in their exhibits as usual. A letter was read from Mr. S. L. Rosenworth of Carstairs in favor of carrying on without prize money, and also vouched that all the Carstairs exhibitors would bring in their exhibits as usual.

The secretary, Mr. C. E. Reiber volunteered that if the fair was held under these conditions it would give his services free of charge.

On being put to a vote it was unanimously passed that the fair should be held on the scheduled date, Wednesday, July 27th, and a committee was appointed to interview the former exhibitors.

Another meeting of the directors will be held at an early date to make full arrangements for the fair.

Mr. J. T. North, principal of the Calgary Preventative School will take the services on Sunday at the Knox United Church. Mr. North is a well-known speaker in Calgary.

Fish & Game Assn. Elect Officers

The Didsbury Fish & Game Association held their annual meeting in the C.P.R. waiting-room Monday evening with Mr. Hugh Lee in the chair.

The chairman reported on the work done during the year. A rearing-pool had been constructed on Bear Creek, a tributary of the Fallen Timber and is now ready for inspection before being stocked with trout fry.

If the pool which has been constructed proves satisfactory, it is the intention of the association to build two other pools on the same creek which will have a capacity of rearing about 25,000 trout.

Mr. Geo. Julien had been active in the raising of pheasants and had placed a number of birds with farmers for breeding purposes.

In the course of discussion it was brought out that prairie-chickens are on the increase in the district and that several large flocks have been seen during the winter.

It was decided to place the membership at 50 cents and a membership committee was appointed. It is thought that with the small membership fee the number of members can be largely increased and a more active interest taken in the work of the association.

The following officers were elected: Hon. Presidents: Messrs. R. T. Rodd and C. A. Hayden. President: Mr. Geo. Julien. Vice-Presidents: Mr. J. Flurry. Secretary: Mr. J. E. Gooder.

Executive Committee: Messrs. W. Davies, W. Herbert, J. A. McElhee, H. Lee, W. McFarquhar, H. Ross, A. McNaughton, T. Johnston, W. D. Archer, C. S. Mortimer, J. Hoesgood, D. Dippel, A. Brasso, and Dr. H. C. Liesemer.

LOCAL & GENERAL

Mr. H. B. Adshad, former M.P. of Calgary was visiting his son, Mr. C. H. Adshad last week-end.

Mr. Chas. Cook returned Sunday from a visit with his parents at Alask.

A meeting of Baseball Club is called for tonight (Thursday) in C. E. Reiber's office at 7 p.m.

Mr. and Mrs. T. Bellway, of Calgary are visiting with Mr. and Mrs. Tom Duncan and Mr. and Mrs. Allen Hunsperger.

The Tennis Club will meet in C. E. Reiber's office tomorrow night (Friday) at 7:30 p.m. All members and those intending to join the club are requested to be present.

Rev. C. J. Hallman is moving to the Bible School where he will reside this summer. The new pastor, Rev. V. Snyder will occupy the parsonage.

The lady entrees spent a very enjoyable evening at bridge at the home of Mrs. W. G. Evans last Wednesday. Prize-winners were: Miss Irene Grant, 1st and Mrs. J. Shells, 2nd.

Rev. A. J. Mitchell left Sunday evening for Calgary to enter the General Hospital and undergo a major operation. He will take a four weeks' leave of absence. The pulpit of the United Church will be supplied during his absence.

At the home of Mr. and Mrs. E. Sherrick on Monday evening, a large number of relatives and friends about eighty in number gathered and gave a shower in honor of Miss Laura Sherrick. The evening was spent in playing games, following which the bride-to-be opened a very many and useful gifts and thanked her many friends for their kindness. A very delightful lunch was served after which the guests departed.

The Oddfellows and Rebekah lodges gave a social evening Monday in honor of Mr. and Mrs. C. F. Dooley who are leaving the district. Both Mr. and Mrs. Dooley have been active workers in these lodges during their residence here, and the appreciation of the members was expressed by Mrs. Hugert on behalf of the Rebekahs and Mr. J. W. Halton on behalf of the Oddfellows. Mr. and Mrs. Dooley were recipients of gifts and good wishes for their future success.

Mr. C. F. Dooley who has been manager for the Atlas Lumber Co. in Didsbury for the past nine years leaves this week to take up a new position in Calgary. Mr. Dooley has for some time been president of the Precision Foundry & Machine Co. in Calgary and is now taking over the active management of the firm. During his term here as manager of the Atlas Lumber Co., the entire plant was rebuilt and the yard developed into one of the principal yards of the company in the province. We all wish Mr. Dooley success in his new position.

WILL BE INTRODUCED HERE

TODAY (Thursday)

From 3 to 6 p.m.

ROGER BARRETT, Ford Dealer

Golf Club Organizes.

The annual meeting of the Didsbury Golf Club was held in the C.P.R. waiting-room on Friday evening with Mr. Geo. Julien in the chair.

The secretary gave his report, showing a successful year and the finances to be in a fair condition.

The membership fee for the season was set at: Gents \$7.00 and Ladies \$2.00.

It was decided to again enter the "Herald" competition, and various other competitions will be held throughout the season.

The following officers were elected: President: Mr. George Julien. Vice-President: Mr. Ward Keith. Secretary: Mr. Thos. Johnson. Membership Committee: Messrs. H. Lee and W. Keith. Competition Committee: Messrs. E. G. Ranton and A. Brasso.

WEEKLY SERMONETTE

"A depression is a period when people do without things their parents never had."

WEDDING.

LUND-PATERSON.

The marriage of Miss Mary Fraser Paterston, daughter of Mr. J. Paterston, of Airdrie and Mr. Andrew Lund, of Olds took place at the United Church manse, Didsbury on Wednesday, April 6th, Rev. A. J. Mitchell officiating.

The bride looked charming in blueorgette and lace. She was attended by her sister, Mrs. Chas. M. Pratt who wore a gown of blue crepe. Mr. Chas. Pratt supported the groom.

After the ceremony a reception was held at the home of the bride's sister. Among the guests were: Mr. Alex. Paterston, brother of the bride, Miss A. Watson, of Cornish, Mr. and Mrs. H. W. Wait, Mr. F. O. Wait, Mr. and Mrs. J. A. McElhee, Mr. and Mrs. A. Bishop, and Mr. and Mrs. E. K. Pratt, all of Didsbury.

A buffet-luncheon was served and everyone joined in showering the bride and groom with good wishes.

The Baseball Club will meet this evening (Thurs) in C. E. Reiber's office at 7 p.m.

Make a New Start

The winter of 1931-32 is passing. It is almost gone. Admittedly, it has been a winter of trial, of hardship, of great difficulty, even of actual suffering for many. It has been a period to try men's souls, to test their faith and their courage. And tens of thousands have stood the test. The experience may have left some marks and scars, it has undoubtedly taught some bitter lessons, and these, in the long run, may not be without their value. At all events, it is to be hoped so. But the present, and pleasant, fact is that this winter of our discontent, disappointment and trial is almost over. For so much we can offer thanks.

With the ending of this winter, there is also a growing belief, becoming more and more general, that the worst of the so-called business depression likewise comes to an end; that from this time onward there will be a steady improvement, albeit slow and gradual. It is not to be expected, nor indeed would it be desirable, that there will be anything spectacular in this betterment, as there was at the beginning of the depression in the great stock market crash. The upward movement should be of a permanent character, and to be permanent it must be slow and gradual, with nothing of the makeshift variety about it.

However, during this winter people have been thinking as they perhaps never thought before, thinking seriously, thinking constructively. So many of the false hopes erected in the days when everything was booming collapsed, so many false goals were overthrown, so many unground theories were exploded, so many bubbles burst, that people generally, including statesmen and politicians, great financiers and business executives, as well as the humble laborer and wage earner, have been forced back to acceptance of and reliance upon the tried and true in economics and the basic foundations of life. This, in itself, is a great gain and full of promise for the years that lie ahead.

One writer in a magazine devoted to business raises the interesting question as to the extent to which the ill-considered choice of a word has played a major part in producing the psychological atmosphere of our far from satisfactory business conditions. He says that if the person or persons who first gave currency to the phrase "business depression" had made the happier and more accurate choice of "business recession" it is conceivable that the general attitude toward our recent past, our still troubling present, and our probable future for some time, might have been distinctly different. While the two phrases might have the same literal meaning, each indicating that business had gone more or less away from a previous point of comfort and satisfaction, might we not have viewed the movement somewhat more cheerfully, more hopefully, had we thought of it as having merely "moved" than as having actually "dropped"? It is clear that "recession" is a much less forceful word than "depression." Casually we picture things as coming back much more easily than as coming up, although the same forces may affect and govern either movement. From now on it would do no harm, and might do some good, in the effect upon ourselves, to think and measure business as having merely receded for the time being rather than as being in a hopelessly depressed state.

Apart from this, however, with the coming of Spring in each and every year all nature refreshes and takes on new life. The grass, the trees respond; all animal life forces invigorated; human beings are inspired with new hopes and animated with renewed energy. The dark days and long nights of winter give place to the longer days of bright sunshine and shorter hours of night. Everybody feels a desire to busy themselves about something useful and productive. Nature itself on every hand is aroused from its long sleep, anxious once again to produce and be fruitful.

We are now entering upon that time of activity and productivity. It is time to make the most of it, not in any foolish spirit of undue optimism, not expecting to work wonders, but with a cheerful hope and expectation that, with the winter of our previous discontent and hardship past, we are again placing our feet on the highroad to better times and in the direction of finer and more permanent and beneficial accomplishment.

It is now up to us as individuals to throw off the depression which has upset and unnerved us, which actually made countless of us, and realizing that it was rather a recession of former good times which took place, set ourselves energetically and hopefully to the task, not only of checking that recession, but of bringing ourselves, our businesses, our country, back to the more satisfactory plane upon which it has been our happy lot in former years to move and live.

Has Faith In Canada

Governor-General Tests Conviction That Dominion Rests On Sound Foundation

Profound conviction that Canada rests on the soundest foundation any country can have, "a people whose character, whose heart, and whose outlook are fundamentally sound," was expressed by the Earl of Bessborough, Governor-General, at a luncheon given in his honor by the Canadian Club at Halifax.

"With the first anniversary of my arrival only a few weeks distant, I am naturally tempted to look back on the events of the past 12 months," said his excellency in his address.

"I have met a good many thousand people, and they besides impressing on me individually that their own city is really the centre of gravity of the whole Dominion, have collectively impressed on me a profound conviction that the Dominion rests on the soundest foundation any country can have, namely, a people whose character, whose heart, and whose outlook are fundamentally sound."

A Woman Geologist

Talented Scotswoman Awarded Medal in Recognition of Research Work

One of the four medals awarded for the current year to geologists of distinction by the Council of the Geological Society of London goes to a Scotswoman—Dr. Maria M. Ogilvie Gordon. This talented lady, who is a daughter of the late Rev. Dr. Alexander Ogilvie, Aberdeen, receives the high honor of a Lyell Gold Medal, together with £20 from the Lyell Geological Fund, in recognition of her researches on the structure of the Western Dolomites (Tyrol). Dr. Ogilvie Gordon studied at Munich University, and was awarded the Ph.D. degree with highest honors in 1909, when the degree was for the first time conferred by that University on women, says the Glasgow Herald.

Acids In Stomach Cause Indigestion

Create Sourness, Gas and Pain.

How To Treat.

Medical authorities state that nearly one-third of the cases of stomach trouble, indigestion, sourness, flatulency, gas, bloating, nausea, etc., are due to the excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated and the acid is deflected from its normal course, causing the digestive functions of the stomach to suffer. It is well known as well.

Excess of acids are not needed in such cases and may do and have. Drinking of water, and taking the powder of Fowler or four tablets in water, right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness or flatulency. The powder of Fowler or four tablets in water, right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness or flatulency. The powder of Fowler or four tablets in water, right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness or flatulency.

Argentine May Exhibit

Plans To Send Wheat To World's Grain Exhibition

The ministry of agriculture has recommended that Argentina farmers send exhibits of wheat and other products to the World's Grain Exhibition to be held in Regim, Saskatchewan, in 1933.

This decision was made at a conference of government agricultural officials seeking to improve the efficiency of Argentine farming methods and to open new export markets for the Argentine farmer.

A hot knife will cut fresh bread smoothly.

For Rheumatic Pains. The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Daddy: "Only fools are certain. Bobby: wise men hesitate."

Bobby: "Are you sure of that, Daddy?"

Daddy: "Yes, certain of it."

RHEUMATISM

DON'T suffer with rheumatism. You get amazing relief from Aspirin. Simple, but how effective! Those worst days, when suffering is acute. If you take Aspirin, the pain subsides. Take it right away. Take enough to drive away every twinge. Aspirin can't hurt you. It does not depress the heart, or upset the stomach.

If you ever have those painful attacks of neuritis, neuritis, sciatica, lumbago get some Aspirin and just follow the proven directions. These tablets are just as effective in such suffering as in the case of simple headaches, colds, etc. The relief is felt immediately.

Carry the pocket tin. Aspirin will insure your comfort through the cold season. Get the genuine Tablets of absolute uniformity, each bearing the Bayer cross. Buy them in bottles of 100 tablets, or this familiar little box:

(Made in Canada)

Indications Point To End Of Drought Conditions And Prospects Are Brighter

More hopeful than he had dared to be in three years, the wheat farmer of Western Canada today looks forward to another encounter with his greatest enemy drought and ponders over the signs, still indistinct, that seem to point to the downfall of his enemies.

His chances of harvesting a normal crop this fall are good, in the opinion of many agriculturists. They are not as bright as in several years previous to the three-year dry period that started in 1929 and ruined or partially ruined consecutive crops, but they are better than in 1930 and 1931 for a variety of reasons.

Drained of its moisture reserve by three summers of scorching sun, the great wheat country of Alberta, Saskatchewan and Manitoba will be put to seed this spring by thousands of grins wheatsmen who know the land must produce this year if they are to keep from sinking further into the slough of debt into which they have been dragged by low prices and crop failures.

Here are some of the reasons they prepare for seeding with hope:

(1) More work than usual was done on the land last fall. The late season allowed farmers, particularly in Manitoba, southern and central Saskatchewan and southern Alberta, to prepare for more acreage for seeding and summerfallow than in the last several years.

(2) Sufficient seed will be available to plant as much, if not more, land than last year when 352,772 acres were needed to wheat.

(3) Fall rains and exceptionally heavy snowfall this winter are likely to leave the top-soil in a fairly moist condition. The lack of reserve moisture, however, makes early spring rains imperative if the crop is to develop properly.

(4) The damp autumn caused growth of weeds, permitting farmers to do considerable cutting and cultivating. In some districts weeds came to seed before cold weather set in. The weed situation generally is expected to be improved in the spring.

(5) Consistent leniency of farmers' creditors is not pressing collections on debt interest and principle.

Despite the promising signs that point to a change in the times, agriculturists know that only one thing will bring production back to normal. There must be early-spring rains, rains that will provide moisture for seed germination and lessen possibility of soil-drifting.

The comparatively small amount of moisture that will be absorbed by the land when snow starts to melt is far from sufficient to get the weeds 1932 crop away to a good start. This is especially the case in areas dried out by three seasons of sub-normal rainfall, including southern Saskatchewan, Manitoba, parts of south Alberta and sections of central Saskatchewan.

An outstanding exception is the Peace River country of Alberta, virtually untouched by the drought menace last summer. Prospects there are for another bumper crop. The soil holds almost a normal moisture supply.

It may be that the farmer is a good gambler, or just a plain optimist, but he feels confident this season will provide his crops with a good moisture supply. "The law of averages, if nothing else," said one expert grower, "should give us rain this spring and summer. In other words

it's been tails so often these last few flips that heads is due."

In the wheat belt where a searching sun burned out thousands of acres of crops last summer, smothering the hopes of farmers early in August, more land than usual is prepared for seeding. Late summer and early autumn could not be wasted and hundreds of far-seeing farmers started cultivating the dry, hard land at a time when normally they would be reaping from it a rich harvest of grain.

Though seed will not be scarce, a good percentage of growers plan to summerfallow from one-quarter to one-third of their land, perhaps planting on the balance more oats than usual to build up depleted feed supplies.

It promises to be a season of hard work for the prairie farmer. He will do a great deal more labor himself than in the days when "two dollar wheat" was his objective, depend on fewer helpers and produce wheat if at the same time he beats the drought—more economically than at any time since machines revolutionized farming a few years back.

SCHOOL WEAR THAT IS CHIC AND SO LOVELY FOR SPRING WITHOUT A COAT

A lovely sheer woollen in rose-red, because Paris has made it so popular, is chosen by the smart junior for her coat-like dress. The trim is plain brown as are the buttons and belt buckle.

Besides woollen, firmly woven cottons, rayon novelties and linen can be used for this darling school dress.

It can also be made with short sleeves.

And it needs no telling how simple it is to fashion it. The small cost is really amazing.

Style No. 989 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards 35-inch with 1/2 yard 38-inch contrasting.

Price of pattern 25 cents in stamps or coin (cash is preferred). Wrap coin carefully.

Gardening Notes

A GOOD LAWN

The lawn is absolutely essential from the standpoint of beauty in connection with any garden, an even, velvet sward of rich green grass setting off brilliant flowers and making an ideal spot for the children to play in. We can use grass for our paths between the beds, though if there is much traffic it may not stand up as well as more permanent material like brick, flagstones, gravel, concrete or cinders. Our lawn must be even, the grass should be a dark green, there must be no weeds and no bare spots. In planting a permanent affair of this kind most of the work must be done in advance. It is essential that the ground be thoroughly dug and levelled before the grass is sown. If at all possible, give any weed seeds a chance to sprout and then cultivate to kill them before we seed down. Late frosts and heavy spring rains will settle the soil after which we should rake level again. Grass like any other plant responds to fertilizer, and while well rotted manure is one of the best agencies in this connection, in the case of lawns it is not so advisable as commercial fertilizer on account of the danger of weed seeds. A good mixture high in Nitrogen, which element furnishes the green growth, is the best to use.

A vital factor in this, as well as all other forms of gardening, is the seed. There are dozens of mixtures on the market and prices vary. But good grass costs money because seed giving a fine velvet sward that will stand up year after year is expensive. Cheap mixtures will make a fine appearance the first year, but kill out badly with frost and are inclined to develop more and more into coarse, rank growing grass as time goes on. Reputable seed houses who depend on trade year after year for their own protection only handle grass that will give the best results under Canadian conditions and their mixtures, tested and approved by Government officials, are safe. One pound of seed is required for every two hundred square feet, and where the ground is shaded special seed should be used. Roll or pound the seeded ground thoroughly. This same practice is recommended for treating bare spots upon which the seed should be raked in thoroughly and some protection against birds, like wire or branches, should be placed over the newly seeded spot.

Damage From Insects

Field Pests Do Damage In Canada Totalling An Enormous Amount Annually

The annual damage wrought in Canada by insects amounts to over \$100,000,000. Prof. A. V. Mitchener, of the Manitoba Agricultural College, told members of the Canadian Society of Technical Agriculturists at Winnipeg.

Professor Mitchener added that in 1932 a more extended area of Manitoba will be infested with the grasshopper plague than was the case in 1931.

A full-size 40-quart milk can may now be made in one piece.

Larne, France, is to have its first swimming pool.

John D. Hands Out Advice

"Don't drive so fast, young man," is what John D. Rockefeller advised Sir Malcolm Campbell, British auto speed king, at their recent meeting at Ormond Beach, Florida. Campbell apparently took John D.'s advice, because he only travelled 253 miles an hour, to establish the new land record. This was 8.2 miles an hour faster than his previous record of 245 miles an hour.

Canada Fails To Keep Pace With Other Countries In The Improvement Of Dairy Herds

Protect Fruit Growers

Hon. Robt. Weir Addresses Meeting Of Canadian Horticultural Council

Reference to the forthcoming Imperial Conference, which will have a bearing on the trade of commercial horticulturists, was made by Hon. Robert Weir, Minister of Agriculture in a welcome address at the 10th annual meeting of the Canadian Horticultural Council at Ottawa.

"The government calls for and relies upon the advice of the horticultural council, knowing that it represents all branches of the industry," said Mr. Weir. "During the past year the government has been trying to give the growers something in the way of a much needed protection in the form of a reasonable tariff. In view of the coming Imperial Conference the government is particularly anxious to get the figures on the cost of production of various fruit crops and the prospects of supplies in one, five and ten years, with the estimated cost. The care with which this information is prepared will determine the results the commercial horticulturist may expect from the conference."

Lindbergh Does Not Change

Just As Quiet At Thirty, But Trifle More Mature

Charles A. Lindbergh was 30 years old the other day. The day found the prince of the sky-ways even more skilled in the science he loves—and just as averse to talking about himself. The aged phrase "Business as usual," still applies to him—so far as any one can discover. Charles Augustus Jr., is now a toddling youngster. A trifle more mature, the flying colonel is in most respects just the same tall, slim youngster who speeded the heart beats of a world with his Paris flight. His light hair is just as tousled and his voice as boyish. The last twelve months have been eventful in the Lindbergh career. Twenty thousand miles, more or less, would be a rough estimate of his year's air travels.

Value Of Cow Testing

Testing Milk Cows For Production Necessary To Success

The value of testing milk cows for production was emphasized at Saskatoon by C. Isnor, dairyman of this district, on the occasion of a banquet tendered him by the Saskatoon Herd Improvement Association, upon his winning the association cup for highest average production, and the Star-Phoenix trophy for the greatest increase in production per cow.

Mr. Isnor said he tested every cow and unless they measured up to expectations he got rid of them. He said he bought all his feed and yet made a profit from his operations.

It was reported that the average cow owned by members produced 29 pounds more butterfat in 1931 than in the previous year despite unfavorable weather conditions.

Canada is not keeping pace with other dairy countries in improvement of dairy herds, in opinion of Dr. J. A. Riddick, dairy commissioner, who addressed the Dairyman's Association of Eastern Ontario at Kingston. He described the movement as "ignored" in this country, for though there has been a gradual growth in cow-testing, the proportion of animals involved is still insignificant in comparison with the total.

"It is somewhat significant," says Dr. Riddick, "that in New Zealand, Denmark and other countries where cow-testing has made most progress, the herd owners have taken the initiative and have borne most of the cost. In Canada, the movement is showing best results in Saskatchewan and British Columbia, where most of the cost is borne by the farmers themselves. This seems to suggest that when the people pay for a service they get more out of it. I sometimes think that governments do too many things for the people in this country."

It is interesting, therefore, to find in the report of the dairy commissioner for Alberta a statement that "organized cow-testing work has been carried on by the Dominion Department for a number of years, but until quite recently has not received the attention and support that it deserves at the hands of our dairymen. Our neighboring provinces of British Columbia and Saskatchewan are developing this sort of work along very substantial lines, and there is every reason to expect that the lower price level for dairy products will give a strong impulse to the extension of any line of work that will promote a lowering of the cost of milk production."

New Tire Air-Cooled

Hundreds Of Holes In Tread Let Heat Escape

It is an established fact that heat is a great enemy of rubber. Tests show that tires sometimes get as hot as 200 degrees, and that this temperature shortens their life. A manufacturer now announces, states World's Work, that a successful air-cooled tire has been devised. Hundreds of transverse holes are placed in the tire tread; the hot air is constantly being squeezed out by contact with the road and replaced by cooler air. The result, it is claimed, is a reduction of as much as 26 degrees in heat.

This inventor believes that it will be possible to make such a tire containing much more rubber than the current types, and that eventually tires will be built which will last as long as the car.

Large Order For Shingles

British Columbia Ships Seven Million To Western Ontario

A train load of 32 cars of British Columbia shingles, part of an order for 24 cars, representing 7,000,000 shingles, or enough to roof over 400 average dwellings, has been shipped from Vancouver to eastern Ontario.

Even in normal times such a shipment would be exceptional. In existing conditions it is hoped that it is a token of renewal of demand for shingles and lumber generally in eastern Canada.

The order is from Weston, Ont.

"I take more notice of actions than words." "You are evidently not used to sending telegrams."—Buen Humor, Madrid

"Did you run against a car?" "No. Against my wife."—Pole Mole, Paris.

Changes of advertisements must reach the office not later than noon Tuesday to ensure insertion in the issue to that week.

J. E. GODDER, Editor & Manager.

Outlook is Brighter.

Extract from Royal Bank Report On Business Conditions.

Preparations for the coming season's agricultural operations will soon be under way in practically all sections of Canada.

Weather conditions in the prairie provinces during the past winter have generally been normal, and snowfall was sufficient to ensure adequate moisture in most districts. The drought areas in Southern Saskatchewan and the adjoining sections of Manitoba and Alberta, however, report that unfavorable conditions still prevail, and in these districts heavy spring rains are required to put the soil in good condition for seeding.

The demand for wheat from importing countries is more active. The French government has raised the foreign wheat quota allowed millers a further five per cent, making the total forty per cent. This is higher than the maximum allowance last season, when the quota was finally raised to thirty per cent in June. Decreases were made beginning with July to provide for the disposition of the domestic crop. Italy has lowered the barriers against foreign wheat, allowing the southern mills to use seventy per cent, and the northern mills fifty per cent. Germany has reduced her tariff on foreign wheat and is also considering the modification of milling regulations to enable the importation of some 14 million bushels of wheat.

Famine conditions have been reported in some sections of Russia, and further exports of wheat this season are not anticipated. Fall sowings of winter wheat were made over a larger area, but difficulty is being experienced in securing seed for spring sowings, and a reduction in acreage may be expected if present conditions continue. World stocks of wheat are still large, but indications point to a substantial reduction in the carry-over before the coming crops are harvested.

With improved demand and adequate moisture supplies, the western farmer is entering the new season under more favorable conditions than have prevailed for some time.

"Isn't It So?"

A discontented farmer wished, if possible, to trade his farm for a more desirable one and accordingly listed it with a real estate agency. A few days afterwards he read in a newspaper the advertisement of it prepared by the agency. It described in glowing terms the many charms, comforts, conveniences and advantages of the place. Three times the old farmer read the ad., then he called in his wife and had her read it to him. Then he seized the telephone and called up the real estate office. "Say, cancel that ad. about my farm," he shouted. "I've decided not to sell it. That's the kind of place I've been wanting for years, and dog my cats, I didn't know I had it."

If many of us could see our jobs,

"Silence," one of the strongest dramas in screen history, with Clive Brook is showing at the Opera House on Monday, April 18th.

"Sooky," with Jackie Cooper and Robert Cogan. A kids' picture that the older ones will enjoy at the Opera House Thursday, April 21st.

Specific Requirements For Growing Chicks

Recent researches carried on in the poultry department of the University of Alberta indicate that the growing chick's requirements for calcium and phosphorus are very specific. Certain types of leg weakness, including such deformities as "slipped tendons" are caused, not by a high protein level, but by an excess of calcium and phosphorus, or a disproportion between these two elements in the ration. With animal proteins constituting from 20 to 25% of the mash, it has been shown that supplements such as oyster shell, grit, limestone or bonemeal, are not only unnecessary, but tend to upset the mineral balance. Furthermore, the chick of today, which lives on a highly concentrated and finely ground mash mixture, needs no grindstones in its gizzard, and in fact makes more rapid growth without such bulky and indigestible material, at least for the first few weeks of its life.

A new mimeograph on the care and feeding of chicks has just been prepared for distribution and will be sent free on request to anyone desiring it.

NOTICE OF PREPARATION OF ASSESSMENT ROLL.

Town of Didsbury Assessment Roll, 1932.

NOTICE is hereby given that the Assessment Roll of the Town of Didsbury for the Year 1932 has been prepared and is now open for inspection at the office of the Secretary-Treasurer of the Town from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the assessed value placed upon any property, must, within thirty days after the date of this notice, lodge a complaint in writing with the Secretary-Treasurer of the Town.

Dated this 14th day of April, A.D. 1932.

W. A. AUSTIN,
Secretary-Treasurer

our lives and our possessions, as others see them, perhaps like the farmer, we shouldn't be so "all-fired" anxious to "swap" them for something we fancy would be better.

**FREIGHT TRUCK LICENSE FEES PROVINCE OF ALBERTA****CLASSIFICATION OF TRUCKS**

All freight vehicles and trucks, in addition to paying the fees set out below, must also pay the usual motor vehicle license as formerly, according to wheel base measurement.

CLASS A.—Includes all trucks used as public carriers for freight haulage. Fees printed below.

CLASS B.—Includes all freight vehicles other than those in the other classes. Fees printed below.

CLASS C.—Includes trucks operating within cities, towns and villages. These are permitted to operate outside to the extent of five miles beyond the corporate boundaries of the cities, towns or villages in which they are licensed. No fee in this class other than usual motor license.

CLASS D.—Includes trucks owned by farmers, market gardeners, or ranchers and used for the transporting of their own property. No fee other than usual motor license.

CLASS E.—Includes trucks in Classes "C" and "D" used for hauling grain between August 1st and December 31st in one year. Fees in this class one-quarter of those in Class "B".

FEES FOR CLASSES "A" and "B"

Fees for Classes "A" and "B" are figured on gross weight, which shall mean combined weight of chassis, body and cab of the freight vehicle and the manufacturer's rated carrying capacity.

Fees for these Classes range from 30 cents per 100 lbs. to \$1.75 per 100 lbs., according to their weight classification.

Applications for truck licenses, stating weight and carrying capacity of truck, should be made to

Here Comes "Sooky."

"Skippy" and "Sooky," those wisful pals of Shantytown, who jumped from the cartoon pen of Perry Crosby to create one of the biggest of all talkie hits, are reunited in the persons of towheaded Jackie Cooper and whimsical brunette Robert Coogan in a Paramount sequel titled "Sooky," which shows at the Didsbury Opera House on Thursday, April 21st.

If you liked "Skippy," you can't be disappointed in "Sooky." The same producers, the same director, the same story staff, re-associate Crosby with Norman Taurog, to present seventy minutes of entertainment in the fullest sense of the word.

Dogs, trinkets, mothers, fathers are treated with typical boyhood earnestness in the new story, which revolves mainly about the efforts of "General Skippy" and "Sooky," his army, to outdo the biggest Boon Boys, a cadet corps recruited from a neighborhood more attractive than Shantytown. Pathos and humor are discreetly mixed, building up to a strong and sympathetic climax.

Springside Notes.

Our Springside reporter informs us that this week he is sick and unable to furnish any notes. We sincerely hope he recovers before next week.

A Prayer.

Lines 200 Years Old Found in Old Chester Cathedral, England.

Give me a good digestion, Lord
And likewise something to digest;
Give me a healthy body, Lord,
With sense to keep it at its best;
Give me a healthy mind, good Lord,
To keep the good and pure in sight.
That seeing sin, is not appalled,
But finds a way to make it right.
Give me a mind that is not bound
That does not whimper, whine or sigh.
Let me not worry overmuch
About the fussy thing called "I"
Give me a sense of humor, Lord,
Give me the grace to see a joke;
To find some happiness in life,
And pass it on to other folk.

"SERVICE RIGHT NOW"

YOU Same as Myself

Who have lost your money in the mythical oils and mines, etc., expecting some day for them to come to production and the market, may now have a chance to partially recuperate some of those losses.

I have now secured a patent on a new creation in shirts, to the appearance, convenience and comfort of men. This patent has been approved by the Patents Office, Ottawa and the date of issue is May 3rd, 1932.

This article is now ready for production and marketing, but owing to the lack of the necessary funds to push it forward, I am offering a limited number of shares in this district at a price that even the wage-earner can be interested in. Only enough shares will be sold to properly place this commodity on the market.

I am employing no companies or high-pressure salesmen to force you to buy shares, but leaving it to your own judgment to consider.

For any information regarding these shares, see H. Lynch-Staunton or the Patentee:

J. DUFFY, Didsbury Patentee.

Notice to Horse Breeders!

"VIMY 11527."

Black Percheron Stallion will travel in the Didsbury district this season. Weight 2,350 Lbs. Prizewinner at the 1932 Calgary Spring Show. Grandson of the noted "CARNOT 69996," Grand Champion at the Chicago International, 1909. Owner, R. S. Edwards, Ardenode, Alberta. For further particulars phone Dr. F. A. McEwan, R616, DIDSBURY.

NOTICE!

All hog producers who have ever signed a contract with the Mountain View or Didsbury Livestock Pools, will receive their share of the profits made during the Year 1931, providing they sign the new contract before June 1st.

CONFIDENCE.

Farmers who do business with this company are confident of safety, of good treatment and efficient service. That is based on the company's record and reputation and the experience of western farmers during more than a quarter of a century.

Your U.G.G. Agent has been appointed an official representative of the Country Guide, and can take your subscription or renewal.

RUGBY NOTES

On April 7th, Rugby W.L. met at the home of Mrs. Hughes, who, we were glad to see, has recovered from her sickness. Thirteen members and three visitors were present. A very short business session was followed by "Current Events" given by Mrs. Wahl, and an interesting talk on "Prominent Present-day Canadians" by Mrs. A. Hogg. All took part in a contest on "Hidden Authors," the prize going to Mrs. G. Youngs. The meeting closed with the National Anthem and lunch was served by the hostess. Next month the Institute hopes to visit with Mrs. C. Brown for the May meeting. The subject will be "Agriculture," and don't forget to bring your plant slips.

BERGEN—NICHE VALLEY

Alma Haug is at home in Bergen. She attended Bible School in Didsbury.

Mildred Olsen, who has been in Edmonton helping with Hope Mission work, will return home this week.

Helma Olsen and Solvig Haug are students of the Three Hills Bible School. They are to return this fall for another year's work.

Oscar Snyder, of Didsbury has been stationed here as missionary pastor for Bergen and Eidsvold districts. He will move out here next week and probably live on Moses Olsen's place.

Mr. Arne Halverson died at his home on Saturday. We extend our sympathy to the bereaved mother and children. The funeral was held Monday afternoon at Bergen schoolhouse, Mr. Berton Weber preaching the funeral sermon. Deceased had been bedfast for about eight years. He was always kind, patient and helpful; a loving father and respected by everyone who knew him. He leaves a wife and six children to mourn his loss.

Burnside Notes.

Mr. and Mrs. Enoch Hughes and family spent Sunday with Mr. and Mrs. Arthur Jenkins.

We hear the timber is in town for the new bridge north of Jutland School. It will certainly be welcome to those who have to travel over the present one.

Mr. Percy Saunders was a Calgary visitor last Tuesday and Wednesday.

Miss Lydia Bittner has been spending a few days with Miss Mildred Cipparley.

Seeding has become general throughout the district this week.

Burnside U.F.A. had visitors from the Didsbury Local, also Community Hall U.F.A. on Monday evening at their meeting. The subject was "Union of locals for co-operative buying and selling." As the subject was not finished it will be discussed again at a meeting at Community Hall on Monday evening, April 25th.

Melvin Notes

Miss Ruth Johnston is spending a few days with her grandmother, Mrs. Troyer.

Mr. and Mrs. E. Vetter, of Three Hills, spent Sunday with Mr. and Mrs. P. Johnston.

We are glad to report that Mrs. Chas. Young is improving, although she is still confined to her bed most of the time.

The Go-Gitters spent a very pleasant evening last Saturday, when the losers entertained the winners. Dancing was indulged in until midnight when ice cream was served.

CHURCH OF ENGLAND

4th Sunday, Evensong, 7:30 p.m.

Seed Grain Relief.

An act to amend the 1931 Temporary Seed Grain Act has been approved, enabling municipalities to pass a by-law to provide for the purchase of seed for 1932.

It has been agreed that seed grain should only be supplied to those who cannot obtain the same through their own resources. All applications for seed to be made to the local council. Applications to be investigated by the issuing authority, a definite recommendation made in each case and submitted to the Supervisor of Charity and Relief who will notify the local authority if the application is approved or refused in respect to the government's participation in any loss that may ultimately occur. In the event of any uncollectable notes for seed grain distributed under these arrangements, the loss will be equally borne by the municipal district and the province.

Seed grain is being purchased by the department of agriculture and may be obtained from the Alberta Wheat Pool or United Grain Growers elevators at points that will be designated by the department of agriculture; at a fixed price for wheat of 58 cents per bushel; oats 38 cents and barley 31 cents, subject to change without notice. Any approved applicant requiring sacked grain must make arrangements with the nearest elevator of the two companies handling the distribution.

The maximum amount of seed grain that may be purchased, as provided in the act, for different acreage is as follows:

Grain not to exceed the value of	
One-quarter Section	\$ 75.00
One-half Section	\$125.00
Three-quarter Section	\$175.00
One Section or over	\$225.00

Anyone obtaining seed shall give a lien on all crops grown in the years 1932 and 1933. The lien shall be a charge on any land sown or registered in the name of the applicant.

An application for seed from a purchaser under agreement of sale, a tenant or occupant, must be accompanied by unconditional written consent from the registered owner to charge his land.
